

DIRECTORY MANAGER

Bringing the Electronic Staff Record (ESR), Active Directory and NHSmail together

Directory Manager™ enables NHS organisations to:

- Automatically extract data from ESR via the Generic Outbound Interface (GOI), providing a daily feed of staff, assignment and organisation information to Active Directory.
- Implement 'one-click' creation of new Active Directory accounts, Exchange mailboxes and file resources for starters, based on data received from ESR.
- Create rules to update Active Directory account details and group membership automatically when personal details and assignments are updated in ESR.
- Provide facilities to upload data to ESR such as employee email address and phone numbers.
- Implement two-way synchronisation with NHSmail to enable employee self-service on NHSmail and to update Active Directory and ESR with email addresses.
- Integrate additional systems such as Deanery and Bank Staff in order to obtain details for the workforce not included in ESR and to manage their accounts.

OVERVIEW

Benefits of deploying Directory Manager

- Systematically create domain user accounts, mailboxes and user folders.
- Control the user account lifecycle.
- Create a link between Active Directory and ESR.
- Free up IT resources from routine user management.
- Disable leavers promptly and efficiently.
- Reduce overall administrative costs.
- Support the implementation of paperless administration systems.
- Provide a full audit trail of changes applied to Active Directory.
- Send notifications of key events to system administrators.
- Schedule and email file extracts for use by NHSmail, ESR or other systems.
- Reduce turnaround times for network access requests.
- Encourage role-based Access Control.
- Provide Active Directory self-service.

"The software has saved me so much time and is now such an integral part of my working life that I can't imagine being without it."

Tracie Waterfield
IT Systems Engineer

"Directory Manager is simple to use, requiring only an hour or two of my time a week at most. It is now an integral part of our AD and I only wish we'd had it sooner."

John Williams
IT Support Engineer

"We were very impressed with the whole solution as well as the professionalism with which it was delivered by BDS, especially under tight timescales."

Derek Jones
IT Infrastructure Manager
